Sixteen deans and faculty members of dental schools throughout Mexico will participate with UCSF faculty in a symposium Monday to Wednesday, June 13 to 15, on the effects of changing dental disease patterns on the future of dentistry in Mexico and the US.

The symposium will feature keynote speeches by Dean John C. Greene and Jacobo Gomez Aranda, executive director of the Association of Mexican Dental Schools, and reports, group workshops and tours of UCSF's new dental facilities.

Sponsored by the school's Department of Dental Public Health, the program will explore future collaborative efforts and foster strengthened professional relations between the US and Mexico. Samuel J. Wycoff is symposium organizer.

The symposium is made possible by a grant from the UC consortium, UC-Mexus.

Hospitals and Clinics is looking for faculty, staff and students, who can sing, dance, play an instrument, juggle, mime or display other special talents, to participate in the campus-wide celebration of the dedication of Long Hospital, scheduled for September 30. All interested persons should contact Danny Williams at x4714.

The Contracts and Grants Office has moved from 1483-4th Avenue to the second floor of 145 Irving Street. The extension 2977 remains the same.

The Immunology Laboratory in the Department of Laboratory Medicine has received a donation from staff members of St. Mary's Hospital, in memory of a friend and colleague in the Outpatient Accounting Department, who recently passed away from Acquired Immune Deficiency Syndrome (AIDS). The money will be used to help in AIDS research.

The schools of Dentistry, Pharmacy and Nursing will hold their commencement exercises within the next few weeks.

• Honorary Marshall Jeanne Quint Benoliel, '69, the first student to graduate from the School of Nursing's doctoral program, now professor of Nursing, University of Washington, Seattle, will lead the academic procession at the school's commencement exercises on Saturday, June 11, at 10 a.m. in the Veterans Memorial Auditorium, Marin Civic Center. Dean Margretta Styles will be the commencement speaker. Awards will be given to those students recognized as the best in the BS, MS and DNS programs, and Teacher of the Year awards will be presented.

The preceding day Benoliel will present the annual Helen Nahm Research Lecture at 2 p.m. in Toland Hall, entitled "Cultural and Social Thanatology: An Emerging Field in Nursing Science."

• The School of Dentistry will graduate 104 dentists and 24 dental hygienists during ceremonies at Masonic Temple on Saturday, June 11, at 1 p.m. Keynote speaker will be Dean John Greene.

For the first time, the Francis A. Sooy Chancellor's Cup will be presented to the outstanding graduate. A pre-commencement awards ceremony was held on May 18, when some 50 outstanding students received awards.

• The School of Pharmacy will hold its commencement exercises on Sunday, June 26, at 1 p.m. at the Palace of Fine Arts. Commencement speaker will be James Nielsen, lecturer in Pharmacy Law and director of the Legal Assistance Clinic. The Bowl of Hygeia Award will be presented to the graduating student who "best demonstrates the qualities of an ideal pharmacist in action, thought and attitude" and certificates of honorable mention to the two runners up.

• The Department of Psychiatry will hold

UCSF was notified on Thursday, May 26, that the State Office of Special Health Care Negotiations has granted a Medi-Cal contract to Moffitt/Long Hospitals and Clinics, according to Chancellor Julius R. Krevans, MD, and Director William B. Kerr. The contract will take effect July 1.

The announcement came a few weeks after the state reported that it was going to reopen negotiations in the SF area for UCSF and other hospitals that had not received MediCal contracts during the first round of negotiations.

Director Kerr declared: "We are extremely pleased that the Office of Special Health Care Negotiations has agreed to UCSF's contract proposal for care of MediCal patients. We have been anxious to assure MediCal beneficiaries full access to the essential, specialized medical services we provide. Since February 1, when the contracting process was initiated in San Francisco, UCSF has continued to care for all MediCal patients whose admission was authorized by the state. The decision to grant us a contract will allow us to continue our long-standing tradition of care for all patients, irrespective of their financial circumstances."

Karl Case Klontz of Washington, DC, was awarded the Gold-Headed Cane during the School of Medicine's commencement exercises on Saturday, May 28. Elsa Marie Aguilar and Allan Enrique Pineda, IV, both of Los Angeles, also were inducted into the Gold-Headed Cane Society.

The cane is presented to the graduating student judged by classmates and faculty as best exemplifying the qualities of a "true physician." It is the highest honor a graduating UCSF medical student can receive.

The original cane has been an historic symbol in English medicine since 1689. The tradition has been honored in the School of Medicine since 1939.

Honorary faculty members inducted into the Society for their outstanding contributions to patient care and teaching were Jack D. Lange, MD, clinical professor emeritus of Medicine, and William C.

NEWS BRIEFS

(Commencements continued)

its graduation exercises on Friday, June 10, at 3:30 p.m. in Cole Hall.

Degrees will be conferred on 23 residents, 4 fellows in child psychology, 8 fellows in clinical psychology, 1 postdoctoral fellow in clinical psychology, 8 mental health doctoral candidates, and 2 candidates for PhDs.

Dennis Farrell, MD, associate clinical professor of Psychiatry will serve as master of ceremonies; Mardi Horowitz, professor of Psychiatry and director of the Center for the Study of Neuroses, will speak on "Psychotherapy: A Look at Aesthetic Properties."

Japanese and American physicians will join together at UCSF Friday to Sunday, June 10 to 12, to begin comprehensive medical examinations on some 200 atomic bomb survivors in Northern California.

This unique program is funded by the Japanese government and benefits Japanese and Korean Americans who were exposed to the Hiroshima and Nagasaki atomic bombs.

Although much expertise has been developed in Japan in the treatment of diseases caused by radiation, this field of nuclear medicine is not well known in the US. The visit from the Hiroshima Medical Team will aid both the survivors and the public in furthering knowledge of radiation effects.

The medical team also will study the psychological problems among the survivors.

In addition, the physicians will be presenting two special lectures entitled, "Long Term Effects of Radiation Exposure in Human Beings" on Friday, June 10, at noon in Room 5K8 at SFGH, and on Monday, June 13, at noon in HSW 301. Also on Monday, the film "Survivors" will be shown at 5 p.m. in HSW 300. It is a documentary on Asian-American atomic bomb survivors now living in the US. A discussion will follow by filmmaker Steven Okazaki.

For further information contact Rick Levine, UCSF Alliance for Nuclear Responsibility, 626-4856.

The Student Loan Fund now has a total of more than $96,000, thanks to the latest $15,000 contribution by the UCSF Faculty Wives. The latest check was presented to Dean Lloyd Kozloff of the Graduate Division, at the association's annual spring luncheon in early May.

The Faculty Wives Student Loan Fund was established in 1970, with an initial contribution of $1,500. The group's fund-raising activities have been so sccessful that the fund is now one of the largest non-federal sources in the student financial aid program.

Two research grants totalling some $300,000 have been awarded to UCSF by the Robert Wood Johnson Foundation.

- The effectiveness of adding routine psychological counseling to the normal treatment course for certain types of trauma patients is the object of a study at SFGH.

The study, which began last month, is directed by Burnet B. Sumner, MS, assistant clinical professor, Psychiatry, who is psychiatric consultant at the Trauma and Plastic Surgery Services at SFGH, and Donald D. Trunkey, MD, professor and chief of Surgery at SFGH.

- Pediatric specialists at UCSF are developing a communication model geared to facilitating interaction among physician, child and parent, under Robert Pantell, MD, associate professor of Pediatrics.

The way a physician communicates with a patient can affect the patient's general health, surgical outcome and adherence to therapy. Any patient, even a child as young as five or six, should be actively involved in his or her own medical care, states Pantell.

An "International Day of Nuclear Disarmament" will be celebrated on Monday, June 20, from noon to 1 p.m. in Saunders Court. A number of speakers, representing the UCSF Physicians for Social Responsibility, and other health professionals will express their views on the health consequences of nuclear war. In addition, there will be a bake sale and information available on the increasing danger of nuclear war. For further information contact Barbara Gerbert at x3000.

Young women ages 14 to 17 who have been victims of rape are invited to participate in a support group, sponsored by the Child and Adolescent Sexual Abuse Resource Center (CASARC) at SFGH.

The group, which began June 1, meets every Wednesday from 4 to 5:30 p.m. on the seventh floor of SFGH in Room 7E2. CASARC counselors, Cindy Wyatt and Rosa Florez-Hart, help victims work through unresolved feelings of anger, confusion, depression and loneliness.

Young women interested in attending should contact CASARC in advance at 821-8386. All information will remain confidential.

The National Cancer Institute has awarded UCSF researchers more than $1 million—$420,000 for each of the next three years— to support and expand research on Acquired Immune Deficiency Syndrome (AIDS).

The grant is one of several being made by the NCI to medical centers around the country. It will help to fund research currently being carried out by approximately 30 investigators at UCSF, SFGH, VAMC and Mount Zion.

Paul Volberding, MD, UCSF assistant professor of Medicine and chief of Oncology at SFGH, is principal investigator for the grant. John Ziegler, MD, UCSF professor of Medicine at the VAMC, is co-principal investigator.

Volberding says the grant is the first from the federal government to support AIDS research in San Francisco.

Primary investigators, in addition to Volberding and Ziegler, are Marcus Conant, MD, UCSF associate clinical professor, Dermatology and co-director, UCSF Kaposi's Sarcoma Clinic; Lawrence Drew, MD, PhD, director, Microbiology Laboratory, Mount Zion; Jay A. Levy, MD, UCSF associate professor, Medicine; Andrew Moss, PhD, UCSF assistant professor, Epidemiology and International Health; and Arthur Ammann, MD, UCSF professor, Pediatrics.
